

Christy Sports

Winter sports retail demands real-time inventory control

NetSuite gives Christy Sports unified visibility across seasonal inventory, resort locations, and financial operations to eliminate stockouts and maximize peak season revenue.

CHALLENGE

Inventory Management

Managing seasonal inventory peaks and troughs is complex.

Operational Efficiency

Streamlining operations across multiple resort locations is challenging.

Financial Visibility

Limited visibility into financial performance affects decision-making.

Customer Experience

Providing a seamless customer experience across channels is difficult.

NETSUITE SOLUTION

Automated Forecasting

NetSuite provides real-time inventory tracking and demand forecasting.

Unified Platform

NetSuite consolidates operations into a single, integrated platform.

AI-Driven Insights

NetSuite's AI tools enhance financial reporting and analysis.

Omnichannel Integration

NetSuite integrates all sales channels for a unified customer view.

Open to 15 minutes next week to map this to your current process?
