#### WHAT WE HEAR FROM COMPANIES LIKE YOURS

##### High Inventory Waste

Excess spoilage leads to increased costs and reduced margins.

##### Poor Supply Chain Insight

Lack of visibility causes delays and customer dissatisfaction.

##### Slow Financial Processes

Manual reporting slows down decision-making and strategic planning.

##### Limited Growth Capacity

Current systems can't support increased demand efficiently.

#### CHALLENGE

#### NETSUITE SOLUTION

#### OUTCOME

##### Inventory Management

Managing perishable inventory efficiently is critical in the food wholesale industry.

##### Automated Tracking

NetSuite provides real-time inventory tracking to reduce waste.

##### Reduced Spoilage

Decrease in spoilage rates by up to 20%.

##### Supply Chain Visibility

Limited visibility into the supply chain can lead to delays and inefficiencies.

##### Enhanced Visibility

NetSuite offers end-to-end supply chain visibility to streamline operations.

##### Faster Delivery

Improvement in delivery times by 15%.

##### Financial Reporting

Timely and accurate financial reporting is essential for decision-making.

##### AI-Driven Reporting

NetSuite's AI tools automate financial reporting, reducing errors.

##### Quicker Close

Month-end close time reduced by 30%.

##### Scalability

Growing demand requires scalable systems to support expansion.

##### Scalable ERP

NetSuite's cloud-based ERP scales with business growth.

##### Seamless Expansion

Supports 25% increase in order volume without additional staff.

#### FINANCIAL IMPACT OF MOVING TO NETSUITE

Industry average estimates only

##### 15-20%

Reduction in manual finance and ops labor

- › Automated reporting cuts month-end close time
- › Real-time data reduces manual data entry
- › Streamlined operations improve efficiency

##### 10-15%

Improvement in working capital management

- › Better inventory management reduces waste
- › Improved cash flow from faster AR/AP cycles
- › Optimized supply chain reduces holding costs

##### 10-15%

Reduction in IT overhead and system costs

- › Eliminates need for multiple software solutions
- › Reduces IT maintenance and support costs
- › Simplifies audit processes with integrated systems
